

# Conversion of Floor Registers to Wall Registers

Select sizes and styles of floor registers can be used as sidewall registers with the separate purchase of wall clips or use with included knock-out screw holes and matching screws.

The following chart shows which style and size comes with included screw holes and which need the wall clips.

Style	Size	Wall Clips?	Screw Holes?*
Victorian	2x	Yes	No
Victorian	4x	Yes	No
Victorian	6x	Yes	Yes
Contemporary	2x	Yes	No
Contemporary	4x	Yes	No
Contemporary	6x	Yes	Yes
Rockwell	2x12	Yes	No
Rockwell	4x	Yes	No
Rockwell	6x	Yes	No
Rockwell	8x10	Yes	No

\*Contemporary & Victorian 6x sizes come with knock-out screw holes and matching screws for wall use.

## Wall Clip Instructions

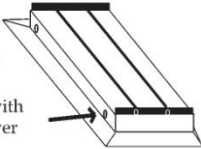

Instructions

Installation of wall clips onto decorative metal floor registers

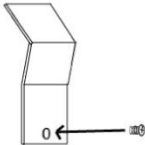

---

1) Place register upside down on flat, clean surface

2) Remove one side screw with #2 Phillips Head Screwdriver

---

3) Insert screw through hole in one wall clip (as shown)

---

4) Attach wall clip to register damper and tighten screw

5) Repeat on other 3 screws

6) Push register in wall duct opening
